

PRESS RELEASE
On ANAJURE's participation in the UN Committee on NGOs Annual Session

In continuity with the agenda, which runs until January 29th, ANAJURE remains represented by its President at the Annual Session of the United Nations Committee on Non-Governmental Organizations in New York, in the expected procedures regarding deliberation on consultative status with the Economic and Social Council.

It is worth recalling that ANAJURE submitted the application for such request in 2017, which was pre-approved by the Committee's Secretariat and presented for final approval by the Committee's member countries at the Regular Session of 2020.

In Wednesday's session (22), ANAJURE intervened orally by presenting its considerations to the question raised by the delegation of the People's Republic of China about our international performance, which were accepted by them. The Republic of Cuba delegation, exercising its regimental right, requested a written report detailing the structure and implementation of the humanitarian projects developed by ANAJURE, which shall be delivered on Thursday (23).

We emphasize that ANAJURE follows and respect all protocols and procedures needed in the actions taken alongside international organizations, noticing the countries that comprise each body, as in the present case. For this reason, we do not hedge from giving due explanations to the questions legitimately made by the Republic of Cuba.
